

Dear Students,

I'm pleased to announce the introduction of certification for every major assignment submitted and graded with grades above 60%. To receive this certificate, **please ensure that your profile is updated with your full name and email id.**

Please note the following details regarding the certification:

1. The certification will be awarded for major assignments graded above 60%.
2. Ensure your profile includes your full name and email id for eligibility.
3. This certification will differ from those awarded for capstone and internship projects.
4. All major assignments must be submitted on time to qualify.
5. Expect grading within 48 hours, with certificate delivery within 3 days thereafter.

I wanted to share with you the list of major assignments and their respective aliases. This list outlines the tools, languages, and frameworks used in each assignment, giving a clear picture of the curriculum:
